## GERMAN TACTICS BRING WARNINGS FROM BRITAIN

Quibbling Over Terms of  
Treaty Must Cease or  
War Is Menace

By LUTHER A. HUSTON  
For International News Service.  
LONDON, Dec. 27.—Complete  
reversal of British policy towards  
Germany unless the Germans  
cease their quibbling over terms  
of the treaty of Versailles, was  
forecast today.

Great Britain and Italy may  
withdraw their objections to  
French occupation of the Ruhr if  
the reparations agreement worked  
out in the allied premiers' con-  
ference in Paris next month is re-  
jected by Germany.

The supreme moment in Eu-  
rope's internal affairs is rapidly  
approaching. It will determine if  
the future is to be tranquil or  
will be menaced with threats of  
fresh warfare.

Climax Comes  
It is learned in authoritative  
circles that the patience of Great  
Britain is being exhausted by the  
stubborn tactics of the Germans.

British officials, it is declared,  
are not inclined to countenance  
any further extension on the re-  
parations issue by Germany.

The climax was capped when  
Germany was declared in default  
of her 1922 wood deliveries by the  
reparations commission.

Premier Bonar Law plans to  
draw up a reasonable indemnity  
program for submission to the  
French and Italian premiers in  
Paris next Tuesday.

If the Germans continue their  
evasions, meanwhile lodging ob-  
jections against every Allied move,  
the moment for the great decision  
will be at hand.

## DR. COUE LEAVES FOR U. S. VISIT

French Healer Tells Press  
American People Are  
'Getting Better'

CHERBOURG, France, Dec. 27.—  
Day by day, in every way the  
American people are going to be  
getting better and better if there  
is power behind the mental mes-  
sage flashed to the United States  
today by Dr. Emile Coue, famous  
French exponent of auto-sug-  
gestion, who sailed for New York on  
the liner Majestic.

Before boarding the liner Dr.  
Coue gave the following message  
to International News Service for  
the American people:

"I will auto-suggest happiness  
to the healthy people of America  
as well as health to the sick and  
afflicted. I will auto-suggest that  
the married couples not only be  
content to live happily together,  
but that they give joyfulness to all  
and dutifully auto-suggest that  
about them. I will auto-suggest  
their lives will be filled with all  
happiness."

Dr. Coue, whose home is in  
Nancy, came into international  
prominence during the past year  
by his method of treating ailments  
with auto-suggestion. Large  
numbers of ailing persons from all  
parts of the world have visited his  
home for treatment. He said that  
he was looking forward to his  
trip to the United States with  
keen interest and plans to visit a  
number of cities. It is anticipated  
that the famous French physician  
will be flooded with applications  
from persons seeking his treat-  
ment.

## Murder Suspect Is Held at San Diego

SAN DIEGO, Dec. 27.—A man  
believed by the authorities to be  
Charles Duasli, alias Tadushski,  
alias Giles, wanted in Chicago for  
the murder of Police Lieutenant  
Lyons at the height of the labor  
troubles last May, is held in the  
county jail here today awaiting  
the arrival of Chicago deputies.  
Extradition papers are being  
prepared and the suspect will be  
taken to Cook county for trial, it  
was said. The man, who denies  
he is the party wanted, and de-  
clares that his name is Joe Hen-  
rick, was picked up here ten days  
ago on a charge of petty larceny.

## More Earth Shocks Rock New Zealand

WELLINGTON, N. Z., Dec. 27.—  
Fresh earthquake shocks were  
reported from the interior of New  
Zealand today. Severe damage  
was reported from the region of  
Waikari. Owing to interrupted  
communication, it was not known  
if there had been any loss of life.

WARNING OF STORM  
SAN FRANCISCO, Dec. 27.—

day from Cape Flattery south to  
Point Reyes, the weather bureau  
reporting no abatement of the se-  
vere North Pacific storm over-  
lying Vancouver island and bring-  
ing rain to the North Pacific

## Dust Must Stay Put, Is Edict of Mayor Robinson

Mayor Spencer Robinson  
yesterday took steps to help  
make Glendale a dustless  
town.

According to an utterance  
of Mr. Robinson's during  
last night's council meeting,  
he is very anxious that all  
alleys in the city be either  
paved or oiled in order to  
lay the dust.

City Manager W. H.  
Reeves this morning gave  
Street Superintendent Leon-  
ard DeWard instructions to  
compile a list of all alleys in  
the city that should have at-  
tention before next summer.  
The only reason more al-  
leys were not treated last  
summer, according to Mr.  
DeWard, is because of the  
difficulty of getting the nec-  
essary oil.

A plan to have all alleys in  
the business district paved  
has been on the calendar of  
City Engineer Ben F. Dupuy  
for several months.

## FAMED FIGHTER'S WIFE IN POVERTY

Mrs. 'Bob' Fitzsimmons and  
Children Found Without  
Funds in Chicago

By JAMES L. KILGALLEN  
International News Service.  
CHICAGO, Dec. 27.—Remem-  
ber old Bob Fitzsimmons? The  
tall, freckled-faced warrior who  
won the world's heavyweight  
championship from James Corbett  
at Carson City, St. Patrick's day,  
1897?

Of course you do.  
Remember "Mrs. Bob" Fitzsim-  
mons? The little, sweet faced  
woman evangelist, who, when the  
kaiser trampled on Belgium,  
rushed across the ocean to help  
the destitute women of the war  
zone?

Maybe you don't.  
Well, this story is about her.  
Today "Mrs. Bob" is penniless.  
A few years back she was worth  
between \$80,000 and \$100,000.  
She is ill, unable to meet her bills  
and she is worried about the fu-  
ture of her two kiddies, Evelyn  
and Marvin.

"Mrs. Bob" didn't break this  
news. It had to be found out.  
She had been telling the news to  
the little woman, and she is very  
proud.

It may be she recalled the days  
when she was Tema Zela, the  
French opera singer; those days  
of youth and romance when she  
met Bob, at the time making good  
his famous contention that "the  
bigger they are, the harder they  
fall."

But today, withal, she is big  
and brave, and there is no bit-  
terness in her voice.

"I trust in God," she said.  
Followed Evangelistic Work.  
It is as she taught. For years,  
in evangelistic work which she  
took up when she parted from  
Bob, she had been telling the news  
in spirit to place their trust in  
the Divine Providence. She was  
interested in a string of homes  
for the destitute between Butte,  
Mont., and Los Angeles, and she  
always did take care of the needy  
—until her money gave out. A  
marry to charity?

Down four dingy flights of  
stairs the writer came, and out  
into the damp atmosphere of  
West Roosevelt road. On the cor-  
ner is a dry beer place. In the  
front window were pictures of  
famous fighters—Jack Dempsey,  
Battling Nelson, Jim Jeffries, Jim  
Corbett, Terry McGovern and Bob  
Fitzsimmons. And Bob Fitzsim-  
mons!

Directly above the pictures was  
scrolled on cheap card board these  
words:

"Happy New Year."  
How ironical it seemed!

## White Shrine Plans Annual Xmas Party

street. The high priestess, announces  
that dinner will be served at 6:30  
o'clock. The dinner and program

## Uncle John Says--

Mary is already lookin' in  
The Glendale Evening News  
for ads of January sales.  
Trust that woman to pick  
up bargains. She knows  
'em when she sees 'em, too.  
You can't fool my wife on  
values on staple goods.  
Sometimes I think Mary can  
smell a bargain. Well, for  
the next couple o' weeks  
you'll see me follerin' Mary  
around from store to store  
carryin' a couple of shoppin'  
bags. That's one drawback  
in bein' the husband of a  
smart woman.

## CHILDREN OF CLUB MEMBERS OFFER XMAS PROGRAM

Two Hours of Entertainment  
Pleases Mothers; Present  
From A. G. Spohr

Children of the Tuesday Af-  
ternoon club members were spe-  
cial guests and entertainers at  
the regular club meeting yester-  
day afternoon in the Keller studio  
at 109-A North Brand boulevard.  
The studio hall was gay with two  
beautifully decorated Christmas  
trees and children and others en-  
joyed two hours of entertainment  
together.

Before the afternoon's program  
started, Mrs. Daniel Campbell,  
president, presided over a short  
business session, greeting the lit-  
tle guests on behalf of the club  
and expressing the hope that they  
would all some day be taking ac-  
tive parts in club affairs.

Of course the new club house  
is nearest the hearts of the club  
women and discussion of plans for  
it are not omitted from any of  
the club meetings. Mrs. Camp-  
bell took occasion to urge the  
members to consider purchasing  
chairs for the auditorium.

From A. G. Spohr  
The real surprise of the after-  
noon was a note from A. G. Spohr,  
druggist of Broadway and Brand  
boulevard, presenting to the club  
a sixty-one piece set of Grosvenor  
pattern Community Plate silver.

Mrs. Campbell read the note:  
"Ladies of the Tuesday After-  
noon club: Noting the interest  
taken by your members in the  
chest of silver given away by us  
some time ago and the fact that  
you were not fortunate in having  
the lucky key, we have been en-  
deavoring to get another chest in  
duplication, and it would give  
us great pleasure to have you ac-  
cept this for your beautiful new  
club house soon to be finished as  
a New Year's present with our  
best wishes for New Year and years  
to come. The chest is at your  
disposal at our store at the pres-  
ent."

"A. G. SPOHR."  
The birthday march held at the  
close of the business session ad-  
ded \$3.95 to the club's building  
fund.

Mrs. Freeman McG. Kelley,  
program chairman, presided over

## S. P. Trains Crash, Two Persons Hurt

TUCSON, Ariz., Dec. 27.—One  
woman had her back slightly in-  
jured and a dining car employe  
was scalded, but not seriously,  
when the east-bound passenger  
train No. 110 and an extra west-  
bound freight train met in a head-  
on collision seventeen miles west  
of here this morning, according  
to the Southern Pacific offices, on  
whose line the wreck occurred.  
The accident is said to have  
happened at Rillito station where  
the trains were to pass. The  
passenger train, meager reports  
said, was about ready to go into  
the switch when the freight train  
crashed into it.

Defective brakes on the freight  
train is said to have caused the  
mishap. Both locomotives were  
damaged, in addition to several of  
the seventy cars which made up  
the freight train. The tracks  
were cleared immediately.

## Walters' Club Once More Raided, Robbed

CHICAGO, Dec. 27.—An anonym-  
ous telephone message to the  
Walters' Club was being held up  
today caused such a rush of po-  
lice through the downtown dis-  
trict as Chicago seldom has seen.  
Barred and padlocked doors  
were beaten down. Inside were  
ten men, two in a stupor, and  
smashed bar mirrors, fixtures and  
furniture.  
The combination knobs had  
been wrenched from two safes.  
How much was taken or who got  
it, all questioning of the prisoners  
failed to disclose.  
Three weeks ago fifteen gun-  
men raided the Walters' union  
headquarters, fired salvoes into its  
occupants, killed the former union  
president and seriously wounded  
a police sergeant.

Another mysterious fire in the  
long list of church conflagrations  
in Ontario and Quebec destroyed  
the Roman Catholic church at La  
Savie, Ont., today. All the fires  
are believed to be of incendiary  
origin.  
A letter indicating that the Ku  
Klux Klan was responsible  
brought forth a denial from the  
"imperial klan" at Atlanta, Ga.

## Special War Frauds Jury Finishes Work

day following a meeting of the

Bouckaert said.

## Splinter of Wood From Cross Upon Which Christ Was Crucified Given to Harding, Made Knight of Order of Holy Sepulchre

WASHINGTON, Dec. 27.—President Harding today  
became the possessor of a tiny splinter of wood said  
to be part of the cross upon which Jesus Christ was  
crucified.

At the same time the president was made a knight of  
the Order of the Holy Sepulchre and was given the insignia  
of the order, a gold cross with a gold crown at its head  
suspended on a scarlet cord. Within the gold cross was  
a piece of wood, said to have been taken from the true cross.  
The insignia was set with four diamonds.

The presentation to the president was made by the  
Right Rev. Panteleimon, archbishop of Meapolis in Pales-  
tine, personal legate of Beatitude Damanius, orthodox  
patriarch of the Holy City of Jerusalem and all Palestine.  
Archbishop Panteleimon arrived in this country only  
a few days ago.

## TWENTY-EIGHT DIE, FIVE SHIPS GO DOWN IN GALE

Heavy Property Damage on  
British Coasts as Result  
Of Heavy Storm

LONDON, Dec. 27.—Twenty-  
eight lives have been lost and five  
ships destroyed in gales which  
have been sweeping the British  
coasts for forty-eight hours.  
Tremendous property damage  
was done.

Rural districts reported heavy  
loss of life among livestock.  
The storm was especially se-  
vere along the western coast. It  
blew in from the Atlantic, sweep-  
ing the country with snow and  
rain and wind that rose to more  
than 100 miles an hour.

Parts of the coast were lit-  
tered with wreckage and life  
guards were kept busy assisting  
seamen on ships in distress.  
Railway schedules were com-  
pletely upset in some parts of the  
interior. Trains arrived at the  
terminal points many hours late.

## BAY CITY POLICE GET BOMB NOTE

Letter to Official Recalls  
Wall Street Explosion;  
Suspect I. W. W.

SAN FRANCISCO, Dec. 27.—"I  
remember the Wall Street bomb  
explosion in New York in 1920.  
There's going to be fireworks in  
one of the exchange buildings  
here unless you keep your eyes  
open, strangers hanging around those  
places and a small grocery wagon  
with a cover over the top," read  
a note received today by Chief of  
Police Daniel O'Brien.

The note was signed by "I. W.  
W." The chief immediately called  
into conference all heads of the  
detective squads and captains of  
various police agencies for a con-  
ference indicating that some cre-  
dence was placed in the mysterious  
warning.

"This is a fact," the note con-  
tinued, "and if you think it is all  
bunk, you'll be very sorry. I am  
giving this information to get re-  
venge on the gang that kicked me  
out and which is planning to blow  
up the exchange building."

Several words in the note were  
underlined to emphasize their im-  
portance.

Several Exchange Buildings  
There are several exchange  
buildings here. The Merchants'  
Exchange building is a large  
structure housing the Chamber  
of Commerce and various affil-  
iated associations.

There are two stock exchange  
buildings, one recently construct-  
ed housing the new consolidated  
San Francisco Stock Exchange.

A heavy cordon of police and de-  
tectives were hurried to the fi-  
nancial district following the con-  
ference of company commanders  
and one of the most sweeping or-  
ders ever issued in the depart-  
ment sent out calling on all offi-  
cers and citizens to assist in pre-  
venting the warned outrage.

## MINISTERS WANT LAW FOR MOVIES

New Scheme to Bar Return  
Of Arbuckle Pictures in  
L. A. Is Devised

LOS ANGELES, Dec. 27.—The  
fight of the ministers of Los An-  
geles on the proposed return of  
Roscoe Arbuckle to the screen  
wound over to the city council to-  
day.

A committee of clergymen rep-  
resenting the ministerial union  
prepared to request a city ordi-  
nance giving the mayor or city  
council power to bar the showing  
of certain films.

The ministers' committee, com-  
posed of the Rev. Gustave Briegleb,  
Rev. W. S. Buchanan, Rev. R. S.  
McCullough and Rev. Robert  
Shuler, was ready to suggest to  
the city council that it should  
pass an ordinance empowering the  
mayor or city council to bar any  
film in which is featured an actor  
who has committed "any overt act  
of immorality."

The request for the ordinance  
is in line with the intention of the  
ministers to make a "white list"  
of houses which will refuse to  
show Arbuckle pictures.

Sanitarium and Hospital, where  
Dr. and Mrs. H. G. Westphal en-  
tertained nurses, staff members,

## Christmas Bells On Telephone Ring Across Continent

"Happy New Year dad-  
dy!"  
It was one long far call  
from Brooklyn, N. Y., to  
Glendale early Tuesday  
morning.

Master Thomas William  
Smith, age 5, son of Mr. and  
Mrs. William Smith of 328  
West Lomita avenue, was  
speaking over long distance  
telephone to Papa and Mama.  
Last August he accompa-  
nied his aunt, Mrs. Helen G.  
Brophy back to Brooklyn to  
visit his two grandmothers  
over the holidays.

By telegraphic pre-ar-  
rangement Mr. Smith called  
his relatives in Brooklyn  
Christmas night and suc-  
ceeded in getting their  
Brooklyn homes at 3:30  
o'clock in the morning.

It was a regular family  
reunion over the telephone  
and little Billy stayed up all  
night to hear that Merry  
Christmas greeting from  
home. The grandmothers,  
who participated in the con-  
versation which is quite  
wonderful when you think of  
the fact that they were lit-  
erally talking from ocean to  
ocean.

This likely was the longest  
drawn out Christmas greet-  
ing given by word of mouth  
in Glendale, although others  
have talked from here to  
New York before.

## S. F. DETECTIVE IS AFTER CLARA

Sleuth Believes 'Hammer  
Girl' Visited North After  
Her Escape

SAN FRANCISCO, Dec. 27.—  
Captain of Detectives Duncan  
Matheson announced today that  
he had every reason to believe  
that Clara Phillips, "hammer  
murderess," visited San Francisco  
following her sensational escape  
from the Los Angeles jail recently  
and that she resided in a hotel  
which brought her here was still in the  
city. He declined to hazard a  
guess as to her present where-  
abouts.

"We have run down many clues  
here which proved futile," the  
head of the San Francisco de-  
tective bureau said. "However  
we have information which leads us  
to believe that Mrs. Phillips vis-  
ited San Francisco after her es-  
cape and that an automobile used  
in her flight is now in this city."

Deputy Sheriff Dewar, reported  
en route here from Los An-  
geles to investigate certain clues,  
has not yet communicated with  
me. I am awaiting his arrival to  
see whether other information  
develops with the clues he is fol-  
lowing."

Deputy Sheriff Dewar on his  
arrival announced he was not  
seeking Clara Phillips and had no  
information regarding the case or  
new clues to follow. He came here  
to take back to Los Angeles Geo-  
rge Reitz, alias Deacock, arrested  
last week at the request of the  
Los Angeles authorities on a  
charge of grand larceny. He ex-  
pected to return this afternoon.

## Follows Up Clues

LOS ANGELES, Dec. 27.—Follow-  
ing clues that might lead to  
the fading trail of Mrs. Clara Phil-  
lips, "hammer murderess," who  
escaped from the county jail  
twenty-two days ago, Deputy  
Sheriff Frank Dewar was in San  
Francisco today questioning per-  
sons expected to give valuable in-  
formation on the case.

Nothing definite could be  
learned from Sheriff Traeger to-  
day regarding the hurried trip of  
Dewar or the exact nature of op-  
erations under way in Los An-  
geles, but indications pointed to  
a red hot tip that was expected to  
give a direct lead to the where-  
abouts of the escaped murderess.

## Local People Offer J. McGroarty Aid

A large number of Glendale people this morning were offering condolence to Mr. and Mrs. John Steven McGroarty, whose cabin in the Verdugo Hills yesterday was completely gutted by flames caused by the explosion of an oil stove.

Jesse E. Smith and E. F. Sanders, president and assistant secretary, respectively, of the Glendale Chamber of Commerce were among the first to motor out to Mr. McGroarty's home with offers of assistance.

The damage to his property is estimated by Mr. McGroarty to run in the neighborhood of \$5000. The cabin and effects were partially covered by insurance.

Among the treasured articles lost in the flames were mementoes and keepsakes which were collected by Mr. McGroarty throughout the world.

Mrs. McGroarty and three friends were in the cabin when the oil stove exploded. They escaped without injury. Mr. McGroarty, who was asleep in his residence at the time of the explosion, immediately rushed to the scene but nothing could be done as there is no fire fighting apparatus in the neighborhood.

## CAMPAIN STARTS TO REORGANIZE OLD C. OF C.

Initial Step Taken at Meet Held Last Night; Two Organizers Talk

James Stevenson and S. B. Schobee, professional organizers, appeared before the executive officers of the Chamber of Commerce of Eagle Rock last night at a meeting held in the office of Dr. H. B. Crawford, and outlined a plan to reorganize the local chamber.

The plan consists of raising the dues to \$12 per year, employing a paid secretary at from \$150 to \$200 per month and carrying on a six weeks' intensive membership campaign at the start which is expected to bring in about 400 members.

Owing to the fact that but four of the executive officers were present, no definite action was taken. Another meeting of the executive officers has been called for next Tuesday night, at which time it is expected to be decided whether or not to employ outside help in the effort to increase the membership.

### Rewrite Old Booklet

George Van Sandt was instructed to re-write the old Chamber of Commerce booklet, add a few more up-to-date cuts, and take steps to have 5000 of these booklets printed immediately. It is understood that these booklets are to be used as a temporary measure awaiting the publication of the proposed new advertising booklet.

The secretary was also instructed to pay the Women's Twentieth Century club the sum of \$50 as the chamber's donation toward the float to be entered by the Women's Club at the Tournament of Roses in Pasadena on New Year's day.

## TINY GIRL WAGES FIGHT ON KLAN

Governor of Louisiana Begins to Investigate Murder Charged to Klan

NEW ORLEANS, Dec. 27.—A little blue eyed baby girl, scarcely more than 3 years old, is behind the war which John M. Parker, governor of Louisiana, is waging today against the Ku Klux Klan. To her tiny size are due the exposures which are shaking the state and nation and arousing action against the hooded cohorts of the "invisible empire." She alone, if her baby tongue could do more than prattle or her baby fingers do more than scribble, could tell and write the inside story of the Merrouge murders.

She is back of the march and counter-march of armed troops which maintain virtual martial law in Moorehouse parish today. She is back of pistol bulging hips and highly skilled riflemen, equipped on the arms of scores of North Louisiana citizens. She is back of the half ton of dynamite, mysteriously exploded, that brought to the surface of Lake La Fourche the headless, wire bound bodies of Thomas Richards and Watt Daniels after their four months' rest in the ooze of the lake bed. She is back of legal and medical talent being assembled by Governor Parker to place the responsibility for that double murder and the torture men say preceded it. She is back of the second and public hearing of this sort in two centuries of Louisiana history when on January 5 men will gather in the machine gun ringed courthouse at Bastrop to thresh out the entire mystery.

**Clean-up Drive Started**  
The machinery which started the clean-up drive against the clan in this state was put in motion after Governor Parker heard a tale of midnight murder, of a "mother's grief," of supine local authority and at last swore a mighty oath when the little child climbed on his knee in his office at Baton Rouge and pleaded: "Won't you please bring my daddy home for Christmas?"

The story goes back to the summer night when little Leota and her daddy, hand-in-hand, were going home. A group of men intervened, and they were hooded. An employee of the Richards garage took Leota home. She tried to tell her mother what had happened. But it was not until Richards had been questioned, released and sent home with a "warning" that Mrs. Richards knew her husband had fallen into the hands of the hooded ones who were seeking evidence or confessions as to the attempt which Dr. B. F. McGehee, former mayor of the little town, said had been made to assassinate him. Leota only knew that masked men had taken her daddy away.

"Daddy" came back that time. But another time "Daddy" didn't come back. It was after a night of terror in the Bastrop-Merrouge road when masked and hooded men robed men with firearms took five men from the hundreds that were motoring from the good roads meeting at Bastrop. Leota's daddy was one of the five. The town knows that three of the five returned. Watt Daniels and Richards did not. Days and nights of search followed along with grand jury sessions which indicted nobody. The constituted authorities of Moorehouse parish seemed singularly supine. Sinister whistling abroad. "Nothing to report" was the official attitude.

NEW ORLEANS, Dec. 27.—"Horri-fying" was the word Attorney-General E. V. Cocco used today to describe what the state of Louisiana has developed in its evidence against alleged members of the hooded mob that killed and mutilated Watt Daniels and Thomas F. Richards last August. "I never felt more sure of having the evidence to convict within our grasp," said Cocco.

A major operation was performed this morning at the Glendale Research Hospital upon Miss Louise Hoyt, daughter of Mr. and Mrs. A. H. Hoyt of 128 North Adams street.

It was the Klan that killed my husband," she exclaimed bitterly. "They'll do nothing about it in Moorehouse parish. They killed him and killed Watt Daniels and their bodies are somewhere in Moorehouse parish today."

It was then that little Leota asked the governor to bring her daddy back. There were tears in the governor's eyes.

"I will, Leota," he said simply. That was all. But within his heart he swore a mighty oath to keep faith with that child. Leota went home comforted. Had not the man with the kindly eyes and

**ESPECIALLY THE WOMAN**

A Letter Friend rebukes me because I said in a recent talk on tact that tact was essential for a happy marriage, especially on the part of the woman.

She didn't see why it wasn't just as essential for the man to have tact as for the woman.

She said she was sick of hearing so much about what women ought to do to make marriage successful and so little about the man's part.

She wants to hear more about how to keep a wife's affection and less about how to keep a husband's.

I understand just how she feels. And I'll bet I know just what she's like.

**And She Has Never Been Married**

She has a fine sense of abstract justice and a passion for equality. And she is never been married. And she is somewhere around 20, probably not over 25.

And she is the most young people under 25, she thinks more about things as they ought to be than things as they are.

Why is it more essential for the woman to have tact than for the man?

Because so long as men and women are both what centuries of life under the man's economic dominance have made them, so long as marriage is an economic advantage for a woman and an economic disadvantage for a man, so long as man is the aggressive power with the world and woman the homemaker, so long will women make more concessions for the happiness of the home and put themselves out more to keep things running smoothly.

**Mrs. F. C.—Leucoderma**, sometimes called vitiligo, is a disorder in which white spots appear on the hands or face or body. There is a loss of pigment or coloring matter in the skin so that white areas are formed. They sometimes appear on the scalp and the hair on that spot will be pure white. The health seems to be unaffected and there seems to be no change in the sensibility of the patches. The textbooks on the subject say the cause of the disease is obscure and all that can be said is that it is probably a disturbance of the nerves or possibly of the internal secretions.

Unfortunately, there does not seem to be anything known in the way of treatment. There is a report of a case in which the normal color returned to the patches after an application of pure carbolic acid. This would probably cause a slight burning and blistering but it might be worth trying on one of the spots to see how it works. Get yourself in the best of physical condition by the proper exercise and balanced diet and proper sleep. I am sorry I cannot tell you more.

**THE IMPORTANCE OF HANDKERCHIEFS**

The same friend in Paris who has sent me so many new suggestions about hair dressing styles and pocketbooks, sends a letter about the new handkerchiefs. Of course, we all know that fancy handkerchiefs are the vogue and talking about them is really not in my line, except to this extent, that the new handkerchief can add much to a woman's attractiveness, and anything of that

can't do batik, you can at least buy silk that's gaily patterned. Make squares of it, roll the edges and slip stitch them to hold them in an over and over hand. It's a new and more attractive than pique.

Wear such a gay colored handkerchief in the pocket of your suit. It will make it less sober and every-day. Or cut one on the bias in half, and drape into a tight band on your belt or vest, or hat, having the folded points standing up a bit in front. Or, make a "cowboy" tie for your simple white waist—this is a new Paris touch.

**Katharine W.**—After a long drive in the wind the skin will always be parched, so extra care will be needed. Remove the soil by using the cleansing cream; then close the pores either by an ice rub or dashes of very cold water.

**James Albert**—One reason why men lose their hair sooner than women, is due to the fact that they wear stiff hats, which impede the circulation in the scalp. Massage your scalp every night and include with this a good hair tonic twice or three times each week. Avoid having a comb or brush used on your head when it has been used promiscuously in the barber shops.

**ECONOMY OF SELF**

The woman who is always tired is a woman who is not well, and she belongs in bed quite as much as the woman who is there. Rest will do her more good than any medicine and help more to keep her well, and the housemother should rest some part of every day, even fifteen minutes' relaxation will do her good, and after it she will go on with renewed energy. She can get this rest if she will. It is always possible to do the things you should do, and to be pleasant and rested is the first duty of a woman with husband and child.

Remember, "As" thy days, so shall thy strength be," and you can do all that belongs to you to do without the wear that makes you cross. You have no more before you that absolutely must be done than you can do well. Separate the things you know must be done from those that may be left, and be guided in your decision by the state of your mind and body, and pay no heed to the things you would do because your neighbors do and think you should do. Your neighbors do not have your life to live; live it yourself as seems good to you. Tasks are the things you do to satisfy your neighbor's notions.

"Do the duty that lies nearest," but be sure it is a duty. You can recognize a duty because it is something that makes you and your family physically well, that develops them spiritually and morally, and does not take from you more than you can give. Your first duty is to make yourself so lovely that your family want to be with you. Nothing is worth while to them or to you that does not help you to be dear to them. Test what you lay out for your work by its relation to this great demand, and reject it if it does not meet this test.

Very many seem-to-be-important tasks will fade into nothingness if judged by this test. If the housewife will eliminate from her housework the non-essentials, she will go through her days much more healthfully and comfortably.

**Rumanian Queen Displays Her Coronation Regalia To Two Americans**

By J. L. MEDDOW

For International News Service.

WASHINGTON — How the queen of Rumania donned her coronation robes especially for the benefit of two American visitors, and staged an impromptu rehearsal of the ceremony is the engaging story told by Mrs. B. Frank Mebane of Spry, N. C., just back from Europe.

A frequent visitor to the national capital, Mrs. Mebane related for her friends here the details of the unusual experience which befell her and Mrs. Kemble White of Fairmont, W. Va., while abroad.

**Royal Invitation**

When Mrs. Mebane was actively engaged in relief work in the Balkan states in 1919 she was extended an invitation to visit the Rumanian Queen Marie at her summer palace in Sanaia, in the Carpathian mountains. Upon reaching central Europe with Mrs. White on their recent trip abroad the invitation was renewed, and the two American women were requested to stay with Queen Marie at Sanaia and then to remain for the coronation and until the royal family returned to Bucharest.

But the guests, who were accorded a hearty welcome by the queen, regretfully informed their hosts that they could not remain for the ceremony, whereupon the queen, throwing aside her royal dignity, ordered brought out all the robes which had just been made for her coronation, put them on for the benefit of her guests and walked down the drawing room of her summer palace so that they could get an idea of what the wedding procession would be like. To give added effect to the scene, the queen's daughter, Princess Elizabeth, now queen of Greece, wore her court dress.

**Puts on Crown**

"It will not look real," the queen said, "unless I wear my crown." And the jeweled golden diadem was forthwith produced, placed upon her head, and the costume for the coronation was complete.

As delighted as a young girl graduating from school was the queen with her gorgeous robes. Mrs. Mebane told her friends. Repeatedly the queen naively asked: "How do I look?" and had the mistress of the robes hold out the long train for the inspection of her American visitors.

Queen Marie confided to Mrs. Mebane the sole remaining ambition of her life—to visit America and, if possible, to travel through every state in the union. The queen, however, spoke rather hopelessly of ever realizing her ambition, owing to the pressing duties in her own country necessitating her constant presence there.

Mrs. Mebane and Mrs. White, just before leaving, were invited to dine with the royal family, the company including the king and queen of Rumania and the king and queen of Greece.

**Sentence of Strike Violators Postponed**

LOS ANGELES, Dec. 27.—Passing of sentence on eight railroad men who were convicted of conspiracy to interrupt the United States mails as a result of the railroad strike troubles at Needles last summer was postponed until next Tuesday morning by Federal Judge B. F. Bledsoe, on motion for the defense.

It was understood that the defense attorneys wished more time in which to prepare motions which would be made before sentence is passed.

Conviction carries with it a penalty of \$20,000 fine or two years' imprisonment or both.

## The T. D. & L.

In his latest production, "The Fighting Streak," which is now playing at the Glendale Theatre, Tom Mix is seen in a part such as he never played before, that of a brawny young blacksmith in a little western town. Through the medium of this character the story takes on novel color and interest, starting Mix off on a series of adventures that provide action every minute and give the famous Fox star another photoplay fairly crammed with thrills and excitement.

Nor is heart appeal missing from this film. Interspersed with scenes of virile intensity runs a sweet, a love story as could be desired, bringing with it tears and laughter and tightening the whole production into a tight dramatic knot.

"The Face in the Fog," a superb Cosmopolitan production released by Paramount, is the feature at the T. D. & L. theatre today. Lionel Barrymore, Seena Owen and Lowell Sherman are the featured players, all stars in their own rights. The result is a photodrama whose marked histrionic merit is evident in every scene.

"The Face in the Fog" is a Boston Blackie Dawson story by Jack Boyle, author of "Boomerang Bill," which featured Mr. Barrymore. The theme of the story is the old adage to the effect that it takes a thief to catch a thief, worked into a most dramatic film. And romance! It is a romance of Russian love, amours of a grand duchess, and a great love that lasts as long as life.

## The MUCKER

by Edgar Rice Burroughs  
Copyright 1921 by Edgar Rice Burroughs

All the recently acquired content which had been Billy's since he had come upon the poetic bridge and the two had made their career, leisurely way along shaded country roadsides, or paused beside cool brooklets that meandered lazily through sweet smelling meadows, was dissipated in the instant that he had realized the nature of the article his companion had been carrying and hiding from him.

For days no thought of pursuit or capture had arisen to perplex him. He had seemed such a tiny thing out there amidst the vastness of rolling hills, of woods, and plain that there had been induced within him an unconscious assurance that no one could find him even though they might seek for him.

The idea of meeting a plain clothes man from detective headquarters around the next bend of a peaceful Missouri road was so preposterous and incongruous that Billy had found it impossible to give the matter serious thought.

He never before had been in the country districts of his native land. To him the United States was all like Chicago or New York or Milwaukee, the three cities with which he was most familiar.

His experience of suburban localities had been gained amidst the primeval jungles of far-away Yoka. There had been no detective sergeants there—unquestionably there could be none here. Detective sergeants were indigenous to the soil that grew corner saloons and poolrooms, and to none other—as well expect to discover one of Oda Yorimoto's samurai hiding behind a fire plug on Michigan Boulevard, as to look for one of those others along a farm-bordered road.

But here in Kansas City, amid the noises and odors that meant a large city, it was different. Here the next man he met might be looking for him, or if not then the very first policeman they encountered could arrest him upon a word from Bridge—and Bridge would get \$500.

Just then Bridge burst forth into poetry:

In a flannel shirt from earth's

clean dirt,  
Here, pal, is my calloused hand!

Oh, I love each day as a rover may,  
Nor seek to understand,  
To enjoy is good enough for me;  
The gypsy of God as I:  
Then here's a hail to—

"Say," he interrupted himself,  
"what's the matter with going out now and wrapping ourselves around that swell feed you were speaking of?"

Billy rose. It didn't seem possible that Bridge could be going to double-cross him.

## Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad.

TODAY—W. F. Sullivan, correspondent at St. Louis, writes of the celebration of the hundredth anniversary of steamship navigation on the Mississippi, which is to be held soon.

TOMORROW—Roland Krebs, correspondent at New York, contributes a sketch of New York's aged messenger "boys"—some of them tottering old men.

For International News Service, ST. LOUIS, Dec. 27.—Some time next Spring, exact date indefinite, the centenary of an important epoch in history will be reached.

Early in April or May of the coming year, according to available records, is the 100th anniversary of the first trip of a steamboat through the waters of the Mississippi River.

Accounts of the trip made by the Virginia are both amusing and interesting. The boat left its moorings in St. Louis in the Spring of 1823, headed for Fort St. Anthony (now Fort Snelling, Minnesota), the incident causing great interest and excitement along the route.

Everyone marveled at the success attained in steam navigation, while the Indians, frightened at what they thought to be a spiritual monster bringing an evil omen, fled out of its sight into the hills and forests.

Data compiled by old navigators and historians recount some of these very amusing incidents accompanying this important maiden steamboat voyage. In the collections of the Minnesota Historical Society the following entry appears:

"During the year 1823 the Virginia from St. Louis arrived, loaded with stores for Fort St. Anthony. She was four days getting over the Rock Island rapids, an obstacle which it had been supposed would prevent steamers from navigating the Upper Mississippi.

As it was the first steamer ever seen by the Dakotahs in this neighborhood their fright was extreme. They took it for some supernatural monster and fled to the woods and hills, with their hair and blankets streaming.

The success of the Virginia in reaching the mouth of the St. Peter's River (now the Minnesota) opened the Upper Mississippi to steam navigation, the mighty

est agent in making the then wilderness blossom as a rose.

Authorities differ as to the date of the trip. Edward D. Neill, in his writings on the history of Minnesota, says:

"The arrival of the steamer Virginia is an epoch in the history of the Dakotah nation that will probably be transmitted to their posterity as long as they exist as a people. It reached the fort on the 10th of May and was saluted by a discharge of cannon."

Some authorities fix the date of start and arrival as May 2 and May 10. Captain Fred A. Bill, of St. Paul, a member of the Pioneer Rivermen's association, in his researches, points out that the shortness of eight days for a trip of such length in those days was impossible and that either the boat started before May 2 or it was later in the month when it reached its destination.

As the differing authorities do not establish any proven facts for their findings it probably never will be determined—the exact date of the trip other than the year.

Accounts of the second voyage made by the Virginia in the fall of the same year draw a most striking contrast between navigation in its infancy and the present-day development. Among the difficulties experienced by the navigators in their first trips was that of providing fuel for the engine.

Members of the crew, accounts say, would often be forced to leave the boat along the route and chop wood to keep the steam engine provided with fuel.

The account of this second trip also bears out Captain Bill's assertion that a trip of this length would require more than eight days. The second voyage between the same two points required fifteen days.

As will be seen from the cut, it is easily mounted upon a panel.

AMPLIFYING TRANSFORMER  
In order to get the maximum of results from vacuum tubes as amplifiers they must be used with correctly designed amplifying transformers. When the tubes were first used as receiving equipment difficulty was found in obtaining a transformer with suitable values. This condition is now a thing of the past.

The cut shown herein depicts a very desirable transformer. The primary receives the maximum amount of energy and delivers it undisturbed in wave form and at the correct potential to the grid of the amplifying tube.

RADIO EXPLAINED  
BY LIEUT. JOHN R. IRWIN  
INSTRUCTOR U. S. AIR SERVICE

EXPLANATION OF RADIO  
A "wave train" is a group of ether waves, sent out at one condenser discharge and contains a number of individual waves depending on the circuit conditions previously alluded to.

Wherever these waves strike a receiving antenna, in their travel from the transmitting station, they will set up in the receiving antenna oscillations identical to those from the transmitting station. These oscillations, as we have shown, are very frequent.

usually so rapid (say over a million per second) that they are beyond the range of the audibility of the human ear which can only detect sounds of a frequency not greater than 4,000 or 5,000 per second.

We must therefore utilize some device to detect ether waves. In common practice this is called a "detector" and using a pair of telephones in conjunction therewith, we are enabled, as it were, to take the energy from the antenna, which, passing through the detector, produces a click in the telephones. The characteristics of the many detectors together with their associated receiving circuits is fully dealt with in succeeding chapters.

They Say That

The national reclamation service is twenty years old. Its achievements in the two decades of its existence are remarkable indeed. It has reclaimed lands which produce to the value of the total agricultural production of the state of West Virginia and equal in value to the farm products of Vermont and Connecticut combined. The value of crops produced on government reclamation projects, in 1921, was nearly \$50,000,000, besides about \$45,000,000 worth produced on private projects which were furnished by the reclamation service.

The federal government, during this twenty years, has invested in reclamation works approximately \$175,000,000. The vast area of 1,675,000 acres, formerly arid, has been furnished with a complete water supply, and about 1,100,000 acres additional, in private projects, has received a supplemental supply. More than 30,000 families have been given homes on acreage in reclaimed areas.

This is constructive achievement, imperial in extent. Areas larger than some of the ancient empires of Europe are being brought under intensive cultivation and are yielding enormously of useful crops. These reclaimed areas are peopled by thriving, happy, contented families.

LOS ANGELES, Dec. 27.—Police were today investigating the circumstances which led to the alleged suicide last night of Miss Connie Mortimer, motion picture actress, who was found dead in a gas filled room in a West Sixth street apartment.

Mystery surrounds the girl's death, inasmuch as no note was found. Her mother, Mrs. Elizabeth M. Edger, could assign no reason for her daughter's act.

## Uncle Wiggily Bedtime Stories

BY HOWARD R. GARIS

UNCLE WIGGILY AND THE NUT SHELLS  
"Dear me!" exclaimed Nurse Wiggily was going to eat pie with Jane one day. "I never shall get it clean again. Xous!"

"Are you speaking of Baby Bunt's face?" asked Uncle Wiggily with a jolly twinkle of his pink nose. "I know Baby Bunt's face is rather dirty since she ate that chocolate candy, but if I help scrub it—"

"Thank you, it isn't Baby Bunt's face that I'm speaking about. And as for Baby Bunt, the poor little dear has as clean a face as anyone," said the muskrat lady. "Haven't you, Baby Bunt?" she asked, for the little rabbit girl was there in the room, and she had looked at Uncle Wiggily in a strange way when he said that.

"I was only fooling," said the bunny gentleman, with another twinkle of his pink nose. "I know Baby Bunt's face is clean. But what is and why is Nurse Jane?"

"The hollow stump bungalow," answered the muskrat lady. "Since Christmas the animal boys and girls have been here eating candy and nuts and they're all over the place—I never shall get it clean."

"Do you mean animal boys and girls are all over the place?" asked Uncle Wiggily. "I only see Baby Bunt."

"Oh, you know what I mean," spoke Nurse Jane with a nervous twitch of her tail. "It's the candy and nuts that are all over the floor—more especially nut shells. The animal boys and girls dropped them everywhere. Perhaps they didn't intend to, but this place is so dirty I'm afraid it never will get clean."

"I'll help you," offered Uncle Wiggily, and he went to pick up all the nut shells from the floor, and Baby Bunt helped him. For, as Nurse Jane had said, the boys and girls, coming in the hollow stump bungalow to show Uncle Wiggily their Christmas presents, had dropped many shells from the floor.

"Nut shells aren't very nice to step on in your bare feet," said Baby Bunt.

"You're right there, my child!" grunted Uncle Wiggily. He had to grunt when he stooped over to pick up the nut shells. "You're right, Baby Bunt. Nut shells are not good to step on. But we'll put all these in this empty shoe box, and when the ashman comes tomorrow I'll have him take them away," said the bunny gentleman.

Baby Bunt went out to play, and when Uncle Wiggily had put the nut shells in the shoe box, Nurse Jane began to sweep and dust the bungalow. Uncle Wiggily carried the nuts to the kitchen, ready to put in the ashes, and when he reached there he saw a pie on the table.

"Oh, ho! Nurse Jane has baked a pie," chuckled the bunny. "I'll eat a piece. She won't mind."

Uncle Wiggily went to the pantry and got himself a knife, fork and plate. He was going to cut the pie with the knife and eat the pie with the fork. Please do not for a moment imagine that Uncle

Wiggily was going to eat pie with his knife and fork, for that would have been a very silly thing to do. He was going to eat the pie with the fork, and the knife was to cut the pie.

Sen. Kellogg Looms As Cabinet Member

WASHINGTON, Dec. 27.—Senator Frank B. Kellogg, Republican, of Minnesota, defeated last November for re-election to the United States senate, may be chosen by President Harding as a successor to Secretary of the Interior A. G. Fall, who will retire from the cabinet within the next few months, according to reports in political circles here today.

No date has definitely been set for Secretary Fall's retirement, but it is generally understood he will leave the cabinet at the completion of two years' service next March.

Senator Kellogg is a close personal friend of Mr. Harding and a member of the so-called "presidential foursome" at golf.

Others mentioned for the post are Harry S. New of Indiana, and Senator Porter J. McCumber of North Dakota, both of whom were defeated in the recent elections.

Railroad Equipment Ordered Inspected

WASHINGTON, Dec. 27.—A general investigation and inspection of all locomotives and cars in use on railroads in the United States was ordered today by the interstate commerce commission.

## BOSTON-YANKEE DEALS MAY END

Coming of Frank Chance to  
Put End to Agreement,  
It Is Believed

By DAVIS J. WALSH  
For International News Service.  
NEW YORK, Dec. 27.—That the coming of Frank Chance as manager of the Boston Red Sox and the almost coincident departure of Colonel T. L. Huston as half-owner of the Yanks, may have an appreciable effect on the alleged working agreement between the two clubs is indicated by the developments of the last several days. It is barely possible that the last of those famous, or infamous, Boston-New York "deals" has been transacted.

As late as twenty-four hours ago, Ed Barrows, business manager of the Yanks, is said to have made another attempt to send Norman McMillen and a suitable cash token of his esteem to Boston for Herb Pennock, the left-hander, Harry Frazee would have none of it. He is said to have demanded players.

**Demand on Yankees**  
A demand upon the Yankees, coming from Frazee, is almost revolutionary. Heretofore, it has been his custom to sell them anything they asked for, whether it was the greatest home-run hitter of all time or the right to enter his theatre by the stage door. It was all one to Frazee. Yankee money was keeping him in baseball and every time the whip was cracked, he rolled obediently over and played dead.

Frank Chance, the two-handed gentleman from California, is not the type to submit gracefully to the business of selling a ball club from under his feet. The chances are good that when he signed a contract with Frazee, a provision was written into it, calling for Chance to do all the trading and selling around Fenway park, Boston.

## TRIO FLEES COLD TO LOCATE HERE

Minneapolis Men Arrive Via  
Auto; They Are Guests  
Of Ben Crandall

It's cold in Minneapolis today! You bet it is, but C. N. Hansen, Clarke Benham and Allen Edgar Moe are not there to enjoy the rigors of the northern state's holidays.

They arrived in Glendale the first of the week and are visiting with Ben Crandall of 1231 Linden street, out Fairview way.

All of this after 3042 miles through mud, over mountains, across desert and into the land of heart's desire, where they will establish a branch of the Advance Supply Company of Minneapolis, specializing in the manufacture of a puncture proof preparation.

Of course, it was to be expected that they had no tire trouble with their puncture proof tubes and the Studebaker light six carried them across country without a nickel's worth of mechanical trouble.

**Car Never Falters**  
The party brought a record load of 1500 pounds of baggage which made the total load more than a ton. The Studebaker was equipped with extra spring leaves and never faltered, although the bow of the spring was lost somewhere along the road. The average of nineteen and one-half miles to the gallon of gasoline was made.

The route followed by the Minnesotans included Kansas City, Wichita, El Paso, Phoenix, Blythe and Los Angeles. As usual, the worst roads were found in New Mexico and Arizona.

## DAHLIAS MUST BE LIKED BY GROWER

J. J. Broomall Issues Book  
On His Favorite Flower  
For Year 1923

"I first raised Dahlias because I liked the flower and this is the most essential thing in the business of growing flowers, whether by the professional or amateur." Such is the key to his success and nation-wide recognition as a Dahlia wizard given yesterday by J. J. Broomall as he stood in the midst of his Dahlia farm home at 257 Rosemont avenue overlooking the city of Eagle Rock and the surrounding valley territory.

Dahlias have been Mr. Broomall's hobby for many years. It was in 1899 that he made his first exhibition in Seattle, Wash. Poor health brought him to southern California fifteen years ago and for thirteen years he has been developing his farm-garden in Eagle Rock. His interest and untiring work have been crowned with such success that prize blooms that he has originated have been exhibited and awarded gold medals and first prizes in all parts of the United States. Only this past season some of Mr. Broomall's blooms were shown at the big show in New York City and awarded two gold medals and several first prizes and pictures of the flowers were shown in the pictorial section of one of the New York papers.

So extensive has Mr. Broomall's farm activities become and the

## Panthers to Meet Cardinals Saturday

PALO ALTO, Cal., Dec. 27.—The Pittsburgh Panthers had their second workout today in the great stadium on Stanford university campus at which they will play the Cardinals Saturday in the second of the post-season inter-sectional football games on the Pacific coast.

The first workout was of a limbering up variety and "Pop" Warner expressed himself as well pleased with the shape his men are in. The Panthers will alternate in using the stadium gridiron with the Stanford eleven, now rounding into final form for the clash.

## Nittany Lions Train For Coming Contest

PASADENA, Dec. 27.—Despite unusually warm temperature, Hugo Bezdek is putting his Nittany Lion through decidedly stiff workouts here in preparation for meeting University of Southern California next Monday in the annual East vs. West Tournament of Roses football classic. The eastern football mentor had his squad out again today for a long session and announced there would be little let-up this week.

The Trojans are likewise due for several severe practice jolts beginning this afternoon. Coach Henderson, although well satisfied with their condition, wants to put a finishing edge on the teamwork.

## 'Strangler' Lewis Undergoes Operation

SAN JOSE, Cal., Dec. 27.—Ed "Strangler" Lewis, world's champion heavyweight wrestler, was recovering today from a minor operation for blood poisoning, performed by his wife, Dr. Anna Morton Lewis, at a local hospital.

The big wrestler arrived home for Christmas suffering with an infected arm which he had scraped against an iron post while in the ring at Kansas City.

**SPORTS CHATTER**  
By BILL UNMACK  
PACIFIC SPORTS SERVICE

It is safe to say that in all the history of sport which we have cognizance has there ever been such a year as 1922. In the matter of active participants in the various sports, the attendance and in the gate receipts, the figures have mounted to new standards.

Undoubtedly football, baseball, golf and tennis are the four forms of outdoor sport which have attained to the greatest heights. Track and field athletics, basketball and swimming are so close behind as almost to make it impossible to classify them a peg behind the first four mentioned.

Obviously, the sport of yachting and polo, which require a large outlay of capital to be indulged, are of a slower growth, but the figures available show that there is an increased interest in these two sports rather than any decrease. Yacht building on the two coasts and on the lakes shows a substantial increase in contracts.

While the number of polo teams probably has not materially increased, there has been a marked increase in the public interest taken by reason of a concerted effort to encourage the public to attend. This interest has had its effect in encouraging the breeding of polo mounts.

Inter-sectional and international competition shows an increasing tendency and while 1922 did not see any big blue ribbon competition, such as the international polo and America's cup races, there were plenty of lesser events competed such as the winning of the British golf championship by

providing roots, plants and blooms for Dahlia lovers that he no longer enters exhibitions. However, Dahlias he has developed and those he has originated always win praise for him and his farm-garden at Eagle Rock.

Mr. Broomall has just issued a thirty-two page catalogue for 1923 called "The Dahlia Guide," and within its pages is a scientific and historical story that is of interest to Dahlia growers and lovers.

Of particular interest to the casual reader of the catalogue is the story of "The Evolution of the Dahlia" and "A Brief History of the Dahlia." Then for the student of the growing of Dahlias there is a wealth of information besides.

A visit to the Broomall farm-garden is a real treat and in addition to making the acquaintance of Mr. and Mrs. Broomall, the visitor enjoys a trip through the Dahlia garden, the root houses and then a visit to other parts of the garden, where he finds countless fruit trees and flowering plants.

Among the treasured trees is a

an American, the winning of the yacht race for fishing vessels by the Canadians, Oxford-Cambridge competition with our American university teams on the track, and the winning of the coveted Diamond Sculls at the Henley regatta by Hooyer, the American. Pugilists in the professional ring came from all sections and tried their strength in various bouts against the American product.

The fight game, while it has not gone back, failed to come up to its professional twin sister, baseball, for the reason that first-class talent has been at a low ebb for the last few years. Dempsey the heavyweight, and Leonard, the lightweight, have proven themselves so much better than any challenger in sight that it has been hard to create an interest. In the other divisions only mediocre talent is available.

Cycling has held its own, as has hockey, chess, horseshoe pitching, lacrosse, and others of what are classed as the minor sports which attract only a lesser circle of their devotees. Automobile racing, which more frequently is classed as a commercial proposition for car builders than a sport for sport's sake, attracted the usual gate comprising those who look for a thrill in the dangerous adventure of reeling off the miles.

It would be hard to say when the limit of advance in sport interest will cease, but there is no indication of it now and so long as population increases, it seems likely to continue.

## Denver Mint Money Is Traced to N. O.

NEW ORLEANS, Dec. 27.—Arrest of two men and two women at a local hotel led today to recovery of \$3300 in currency believed to have been part of the \$97,000 loot obtained December 11 by highwaymen who held up and robbed a messenger of the Drovers National Bank of Kansas City and escaped after a gun battle.

The prisoners are: Jim Caverly, 36, and his wife, 35; George Wilson, 25, and his wife, 24 years old.

The arrests followed a nationwide search which ended when detectives discovered Mrs. Caverly had forwarded a trunk to New Orleans. Caverly and Wilson left Kansas City several days after the robbery, ostensibly for New York.

Casimavova, a tropical tree, one of the few of its kind in southern California.

When in 1920 the United States Naval Academy won the world eight-oared championship of the Olympic Games at Antwerp, the world at large and particularly staid old England sat up and for the first time gave credit to this country for its rowing. Then Kelly in the same series won the single sculls and that added further prestige to American rowing methods.

Now comes 1922 and Walter Hoover of the Duluth Boat club goes into the camp of the enemy and captures the one race of all races that foreigners concede the world's amateur single sculls championship—The Diamond Sculls. That victory of Hoover's this year caps the climax for American rowing. True the English critics had lots to say about Hoover's methods, but one and all came to the final analysis—"He won."

The victory of American methods in the Olympic games, followed this year by Hoover's successes as well as successes of other American crews in other years in less important regattas in Europe has set the stamp of approval on our methods, the first time probably in the history of rowing that foreign countries have given us a full measure of merit for our work.

Incidentally, rowing in this country never had a greater year than 1922. The continued success of the U.S. naval crew is one of the outstanding features of the sliding seat sport of the year. The navy has boasted some of the greatest college crews known in this country and by an odd coincidence both in 1921 and again this year it has taken a Pacific coast varsity crew to make the navy row the greatest races of their crew. Last year it was the University of California that pushed the navy to the limit and this year it remained for the University of Washington to come through and give the navy a real race which was "anybody's race" until the last few yards.

The University of Washington won the Pacific Coast Conference title after a tight race with the University of California crew and then went east to give the navy its great race.

In the affairs of the National Association of Amateur Oarsmen, the duly recognized national championship regatta, the Duluth Boat club won the title. Its splendid eight-oared crew annexed the main event. In the single sculls, Hoover was unable to get into shape to row. He had just returned from his great successes in winning the Diamond sculls and this singles event in the national regatta was won by Paul

Costello of Philadelphia, next to Hoover unquestionably the best singles man in the country today, though on this point many Pacific coast oarsmen are willing to back Bill Wilson of the South End Rowing club of San Francisco against Costello.

Club rowing on the Pacific coast for the first time decided an actual coast champion four. The Pacific Association of Amateur Oarsmen held their regatta which the San Diego Rowing club won, taking every event but the senior singles won by Wilson of the South End club. The Pacific Northwest association held their regatta and the Vancouver Boat club was adjudged the champion four. The northern winner and the San Diego crews were then matched with the result that the Vancouver crew won the coast title.

The world's professional sculling title changed twice in the past year. In January last Darcy Hadfield of New Zealand won the title from the holder Dick Arnst, but three months later James Paddon, a former world champion challenged Hadfield and defeated him for the title by nine lengths at Wanganui, N. Z.

## International Plot To Ship Drugs Here

LOS ANGELES, Dec. 27.—Cooperating with the federal narcotic squad, deputy sheriffs investigating the growing traffic in drugs began today to work on information that a gigantic plot originating abroad is on foot to smuggle "dope" into this country.

Seattle was said to be the chief port of entry through which the international narcotic ring is smuggling two different drugs used by the addicts.

It was even hinted that certain powers abroad with political ambitions and territorial acquisition as their objectives, plan to make the United States a "nation of dope fiends." The traffic has become so voluminous it was said that a Japanese known to the federal men guarantees the immediate delivery of large quantities of drugs upon the payment of spot cash.

# More Than a Half Billion Dollars Annually from California's Natural Resources

California has a large area in the Sierra Nevada Mountains, much of it more than a mile above the sea. The towering mountains are vast store-houses of mineral wealth. Their streams provide enormous power.

On their slopes stand billions of feet of timber and some of the trees are older than any other living thing.

And dotted over California's surface are oil wells which pour out millions of barrels of "black gold" every month. Such is the natural wealth of this great commonwealth.

way for the development of large amounts of additional power.

## How You Can Serve Your State

This advertisement is one of a series of three, the first devoted to telling of California's agricultural wealth, the second to California's natural resources, and the third to California's industries. These are facts of which you can well be proud.

Beautiful booklets and descriptive literature about California have been prepared by such organizations as Californians, Inc., San Francisco, by the All-Year Club of Southern California, Los Angeles, and by the San Diego-California Club, San Diego.

There are thousands of people in other states who have no conception of California's greatness. Some of them are your friends. Help us tell them.

If you will send to the Southern Pacific Company a list of the names and addresses of your friends, living elsewhere, whom you would like to have receive this series of advertisements as well as the California literature prepared by these organizations, which have for their sole purpose the advertising of California, we will see that your friends get this California literature.

## Your Own Community

Note the map which shows where your town is located. Your friends will be glad to know. The list of names you send us will be turned over to your own Chamber of Commerce or other civic organization, and literature will be sent to your friends and kinsmen telling them interesting facts about your own particular community.

Simply attach your list to the coupon below and send it to us—no obligation on your part. Do it today before you forget. In this way you will help to spread this message of California's greatness throughout the land and perform a valuable service not only to your State but to yourself and to your community.

## California's Principal Minerals

In the days of '49 California became known as the "Golden State." She still leads in the production of gold, which is produced in thirty-two counties and exists in others. Last year the production of gold in California reached \$15,800,000.

But now many other minerals take their place with gold as sources of the State's wealth. More than one-fourth of the nation's output of petroleum last year came from California. Its value was \$182,400,000.

More plebeian, but contributing largely to our wealth, were brick, cement, building stone and crushed rock, which aggregated \$27,000,000.

And in lesser quantities we find that California's mineral production included also silver, copper, lead, zinc, quicksilver, platinum, natural gas, magnesite, salines, including borax, potash, salt and soda, and miscellaneous industrial minerals. California has the largest iron ore deposits west of the Missouri River.

The total value of all these products taken from California's natural storehouses last year was \$244,856,910.

## Valuable Timber Resources

To the great wealth of minerals which California's bounty provides must be added \$90,000,000 for the lumber cut annually.

Great forests of white, yellow and sugar pine and fir sweep southward from the northern boundaries of the State to the San Jacinto Range. In the Coast Range are great forests of redwood.

California contains twenty National Forests, whose total area is more than 24,000,000 acres.

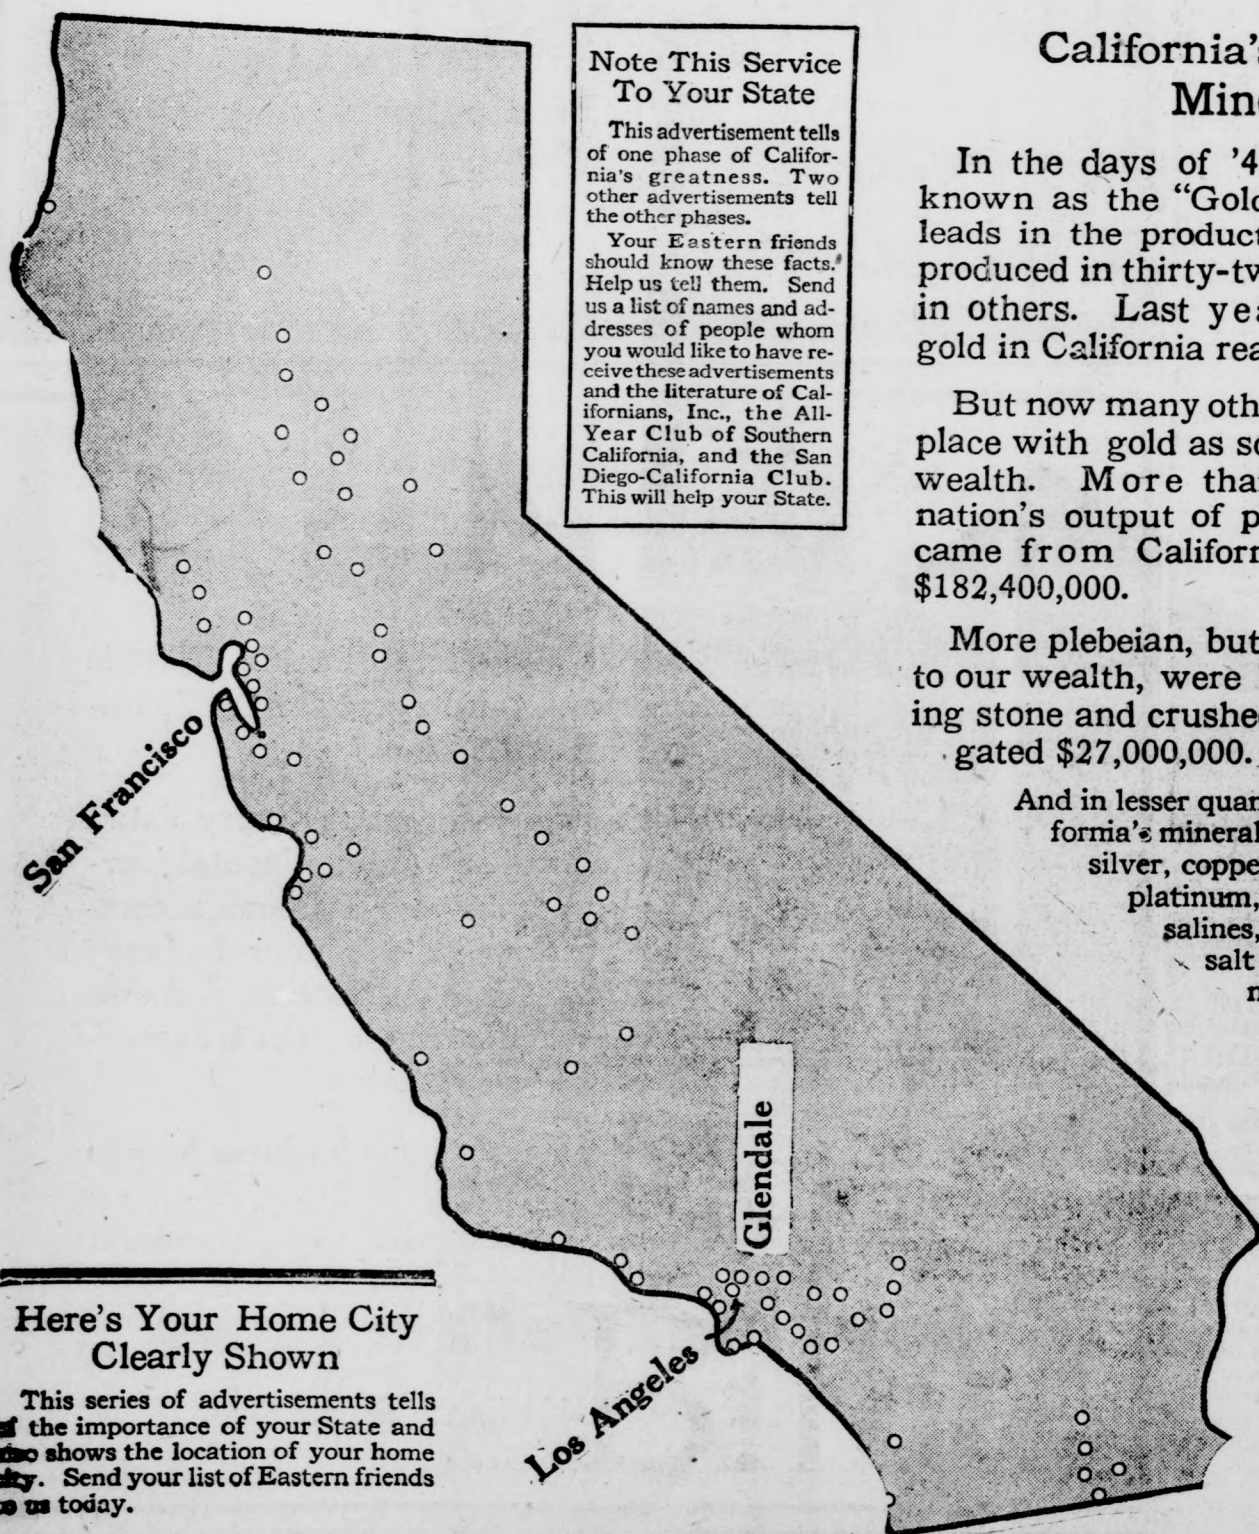

It is estimated that these National Forests contain 120,000,000,000 board feet of standing timber, mostly pine, redwood, fir and cedar. The value of this timber is \$250,000,000.

## Water Power

And finally are tremendous and valuable resources in water power, partly developed and partly undeveloped.

It is estimated that there is available about 5,000,000 horsepower in California. This figure includes only the power which is now looked upon as practical—power which may be obtained by the type of plants which is now being installed.

About 1,250,000 horsepower has already been developed in the State and plans are now under

All of the other men claimed by the girl to have been prominent in the wrong against her were held in the county jail today.

## CHILDREN GIVE FINE PROGRAM

Tuesday Afternoon Club's Holiday Gathering Is Complete Success

(Continued from Page 1)

The children's program, which proved to be one of talent and entertainment.

Katherine and Margaret Dotson, 10 and 7 years old, were the first little artists introduced, and they played a group of piano duets by Joseph Lowe. Later Margaret played "The Fragrance of the Rose" (Liebling), and Katherine played two original compositions, "The Circus" and "Midnight Revels" and "Melody in F" by Rubenstein. The little girls are very talented and their pleasing stage presence and musicalness were highly complimented by the applause of their hearers.

### Planning Program

The planning program, "Jim Crow" and "Jim Lay," given cleverly by Jane Addie Pierce, were equally as enjoyable as the selections given by the Dotson sisters. One always associated pianos with older artists, but Jane did some clever work in her two numbers.

Other piano selections were given by Marguerite Chappel, who played "Barcarolle" (Rozers) and "Melody" (Cadman); and Robert Glenn Moore, who played "Skating" and "Grandma's Music Box." Both are as talented as the preceding little pianists and they received their share of the applause.

Dramatic readings were given by Marguerite Chappel and Evelyn Kent. Marguerite gave a Christmas monologue ending with a tribute to "Mother," while Evelyn gave "How to Behave at the Party" and on "Just Being Good."

### Dance Numbers

Three very delightful dance numbers were given by pupils of the Pearl Keller school. Julia Pelley in Indian costume; Katherine Sonntag in a Pierette costume, and Helen Rosenberg in Grecian costume. All three little girls showed ability and careful training and their farewell bows were followed by hearty applause.

Following the program the children were led in a grand march by Mrs. Campbell. As they marched past the Christmas tree they were all served ice cream cornucopias.

### CHRISTMAS PRESENT

The Glendale Police and Firemen's Relief Association has received a Christmas present of \$5 from Mr. and Mrs. William Davis, which has been placed in its treasury.

### Tract of Oil Land Is Christmas Gift

Santa Claus must have heaved a sigh of relief when he took from his sack the Christmas present he had brought all the way from Mexico for Charles, Leroy and Pauline Marsh, children of Mrs. George Newman of 237 North Cedar street, because it was so heavy it must have caused many a crink in poor Santa's patient back during the long journey.

The gift was a large tract of oil land near the Tampico field, and the donor, Charles Reynolds, of Mildred, Kans., the children's uncle.

### OFFICIAL MINUTES OF COUNCIL

Following are the official minutes of the City Council which met in session at the city hall Tuesday night.

Council assembled at 8:20 o'clock p. m. All members present. Minutes of December 21 read and approved.

### Officers' Reports

The matter of flood control in Watson Canyon referred to city engineer for report was returned with the recommendation that the city take no action at this time. On motion of Councilman Stephenson, report of city engineer was accepted and ordered filed, and clerk instructed to mail copy to complainants.

### Vacation Alley, Tract 485

Petition from property owners to vacate an alley in Tract No. 4855 having been referred to city engineer was returned with the recommendation that petition be granted upon the condition that petitioners place a deed in escrow for a 15-foot alley along the northeasterly lines of Lots 37 and 38 and that petitioners furnish the city with easements over the central 10 feet of the vacated alley subject to approval of the superintendent of plant and production and that petitioners deposit money sufficient to cover expenses of vacation proceedings.

On motion of Councilman Davis report was accepted and ordered filed and city engineer instructed to take up matter with petitioners.

### Proposed Subdivision

A map of proposed subdivision having been presented for tentative approval and referred to city engineer, who recommended the approval of proposed tract No. 5962 provided the city receive a deed to lot 34 for street purposes. On motion of Councilman Stephenson it was ordered that subdividers be notified that a map of Tract 5962 would be approved according to city engineer's recommendation.

### Extension of Time

On motion of Councilman Stephenson, Cornwell & Henderson were granted an extension of forty-five days on their Palmer avenue contract.

### Pacific Electric Lease

On motion of Councilman Stephenson, lease No. 4812, with the Pacific Electric Railway company, covering pipe line under the Glendale-Burbank line at Justin avenue was approved, the mayor instructed to sign same in behalf of the city and city clerk to attest same.

### Contract to Purchase

On motion of Councilman Stephenson, the following resolution was adopted: Resolved, by the council of the city of Glendale, that the contract dated December 9, 1922, between J. D. Radcliffe and Bertha M. Radcliffe, his wife, as parties of the first part, and the city of Glendale as party of the second part, for the sale to said city by said parties of the first part of that certain real

## REGIONAL BOARD PLAN OF COUNTY

Supervisor Wright Tells C. of C. Directors of New Commission

(Continued from Page 1)

electing one of its members chairman. Such other officers and committees shall be elected, or appointed by the chairman, as the commission may find expedient.

The commission may adopt rules and regulations for the administration of its affairs, and may prescribe the duties of its employees, not in conflict with the rules adopted by the Board of Supervisors.

Rule 2. Subject to the direction and control of the Board of Supervisors, the commission shall have power and it shall be its duty:

(a) To make a study of the problems of the county with respect to residential and industrial districts, traffic conditions, public parks and boulevards, flood control, subdivisions, and, in general, with respect to those matters affecting the orderly growth and development of the county as a large commonwealth, and to make recommendations for the solution of the same.

(b) To advise with the Board of Supervisors and other county officials with respect to their duties affecting any of the above matters.

(c) To seek to interest the various municipalities and other political subdivisions of the county in a joint effort to understand and solve the common problems of development confronting them and the counties of the region.

At the conclusion of Mr. Wright's talk, President Smith, of the chamber, said that the proper man for the planning commission from this district will be Peter L. Perry, Glendale contractor. Mr. Smith said he would interview Mr. Perry immediately and see if he could obtain his consent to take the position.

### Deaths and Funerals

MRS. MARY BELL TAYLOR  
Mrs. Mary Bell Taylor died this morning, Wednesday, December 27, 1922, at her home, 403 Fairview street.

Rev. Louis Tinning, assistant pastor of the Presbyterian church, will officiate at the funeral service which will be held at 10:30 Friday morning, December 29, 1922, under the direction of L. G. Seavern.

Mrs. Taylor had resided in Glendale for the past three years. She was born in Ohio, January 12, 1850, and was almost 73 years of age.

Z. B. Taylor survives his wife. She has a sister, Mrs. Edwin Mansfield in Shelby, Ohio.

### Births

FRANK WILSON VAN  
Frank Wilson Van died this morning, Wednesday, December 27, 1922, at his home, 516 East Maple street, after a residence of two years in Glendale.

Mr. Van was born August 15, 1858, in Illinois, and was 64 years of age. He is survived by his wife, Mrs. Daisy Van, and two sisters, one in Hollywood and the other in Urbana, Ill.

L. G. Seavern stated that funeral announcement would be made later.

### Money spent in Glendale helps to make Glendale a bigger and better city.

"People are just getting crazy wild to travel," remarked Mr. Cox. "All three letters told me of different people who are coming."

"This weather certainly is fine. I was just starting to write a letter back to Glenwood Springs to tell the people back there what a wonderful Christmas we had."

J. A. Malch, proprietor of the blacksmith shop at 412 West Los Feliz road, was called on business yesterday afternoon to Los Angeles.

Mr. and Mrs. Julian B. Murphy of 1426 South San Fernando road had as their guests Christmas Mr. and Mrs. Harry Cornish of San Diego, Mr. and Mrs. W. H. Williams of Venice, I. O. Williams of Lindsey, and a number of friends from Los Angeles including Mr. and Mrs. D. H. Dalrymple, Mr. and Mrs. James B. Murphy, Mr. and Mrs. Walter Briggs, Mrs. Nora Stevens and Tom Stevens.

The prospect of being on a diet all week as a result of Christmas now confronts F. L. Woolard and family of 501 Myrtle street who has been explaining his predicament to friends in Southern Glendale.

It seems that Mr. Woolard has one brother-in-law too many or maybe both of them are too kind hearted.

Early Sunday morning one of them, S. W. Fenton of 530 Oak street, reported with a perfectly good turkey as a present. While he was cooking Monday, another brother-in-law, E. L. Rice, drove up from San Bernardino with another large turkey.

"The worst of it is," remarked Mr. Woolard, "all our guests left last night and now there are only four of us to finish up the second turkey. 'Spect we'll have turkey all the rest of this year."

Mrs. G. W. Cox and Mrs. Juanita Everetts of 1425 South Central avenue visited Venice and Santa Monica Christmas morning. Meanwhile, Mr. Cox stayed home and basted the turkey. When dinner was served Mr. Cox says that he continued to baste the turkey, too.

Santa Monica was visited Christmas by W. L. Floyd of 421 West Cypress street and Charles Smith of Southern Glendale.

Ralph Pierce of the Russell-Pierce Furniture Company, 1529

Number of People Spend Sunday In Visiting; Notes, Brief News Mentions of Live Section

The Sunset Country Club had as its guests Sunday Mr. and Mrs. Claude C. Caswell of 230 North Central avenue and Mr. and Mrs. Edwin W. Evans of 1214 Mariposa street. Mr. Caswell operates the meat department and Mrs. Evans operates the fruit stand in the Gateway Market.

The Gateway lunch stand was closed, Christmas while Mr. and Mrs. Walter Buttery enjoyed a turkey dinner at the home of Mr. Buttery's mother, Mrs. A. R. Buttery of 335 West Harvard street. Others present were Mr. and Mrs. B. Meyers of Los Angeles, Mr. and Mrs. Clifford Tillford of San Bernardino, Mrs. S. Burgess of Glendale, Mr. and Mrs. L. Burgess of Syracuse, New York, and Howard Scott of 439 Salem street.

An addition to the canine population of Glendale is reported by Allan N. Fairchild of 1036 Boynton street. They are seven thoroughbred Irish terriers.

Mr. and Mrs. R. W. Dick of 424 West Windsor road and Mr. and Mrs. Robert and Frank, motored home yesterday from Tulare where they spent the week-end. Mr. Dick, who is assistant manager of the Baldwin Shirt Company's factory at 1725 South Brand boulevard, spent a large part of Christmas basting turkey—with a knife and fork.

A. F. Barrett, proprietor of the Triangle filling station at 1709 South San Fernando road, was in Los Angeles yesterday afternoon on business.

Robert Danner and family of 1631 Gardena avenue spent Christmas in San Pedro at the home of Mr. Danner's father, J. R. Danner.

Ralph Harmon, small son of A. E. Harmon of 819 South Glendale avenue, is ill. It is reported that he has pneumonia.

Mr. and Mrs. B. G. Jackson of 216 West Eulalia street had as their guests Christmas, Mr. and Mrs. Will Robins and Mrs. Amanda Mortimer of Highland Park.

Somebody either had turkey dinner in Southern Glendale or R. R. McBurney, proprietor of the South Glendale Bakery at 1408 South San Fernando road is very much mistaken. He says that he baked fifteen large birds, a whole flock of them, in his oven but cannot guarantee what happened to them after they were delivered.

Evelyn Murphy and Dorothy Murphy, daughters of Mr. and Mrs. J. B. Murphy of 1426 South San Fernando road, are spending the week in Venice as the guests of Mr. and Mrs. W. H. Williams.

A large influx of tourists is to be expected "shortly" according to G. W. Cox, proprietor of the South Glendale Dry Goods Store at 1510 South San Fernando road. He stated yesterday that he had received mail from Alabama, Missouri, and Colorado, announcing the departure of people for California.

"People are just getting crazy wild to travel," remarked Mr. Cox. "All three letters told me of different people who are coming."

"This weather certainly is fine. I was just starting to write a letter back to Glenwood Springs to tell the people back there what a wonderful Christmas we had."

J. A. Malch, proprietor of the blacksmith shop at 412 West Los Feliz road, was called on business yesterday afternoon to Los Angeles.

Mr. and Mrs. Julian B. Murphy of 1426 South San Fernando road had as their guests Christmas Mr. and Mrs. Harry Cornish of San Diego, Mr. and Mrs. W. H. Williams of Venice, I. O. Williams of Lindsey, and a number of friends from Los Angeles including Mr. and Mrs. D. H. Dalrymple, Mr. and Mrs. James B. Murphy, Mr. and Mrs. Walter Briggs, Mrs. Nora Stevens and Tom Stevens.

The prospect of being on a diet all week as a result of Christmas now confronts F. L. Woolard and family of 501 Myrtle street who has been explaining his predicament to friends in Southern Glendale.

It seems that Mr. Woolard has one brother-in-law too many or maybe both of them are too kind hearted.

Early Sunday morning one of them, S. W. Fenton of 530 Oak street, reported with a perfectly good turkey as a present. While he was cooking Monday, another brother-in-law, E. L. Rice, drove up from San Bernardino with another large turkey.

"The worst of it is," remarked Mr. Woolard, "all our guests left last night and now there are only four of us to finish up the second turkey. 'Spect we'll have turkey all the rest of this year."

Mrs. G. W. Cox and Mrs. Juanita Everetts of 1425 South Central avenue visited Venice and Santa Monica Christmas morning. Meanwhile, Mr. Cox stayed home and basted the turkey. When dinner was served Mr. Cox says that he continued to baste the turkey, too.

Santa Monica was visited Christmas by W. L. Floyd of 421 West Cypress street and Charles Smith of Southern Glendale.

## BILL HART, WIFE MAKE UP, REPORT

Former Winifred Westover  
Denies Reconciliation  
Was Made Xmas

LOS ANGELES, Dec. 27.—Despite denials, rumors persisted today that William S. Hart, film star, and his bride with whom he lived for six months, have effected a reconciliation.

In statements, attributed to her Mrs. Hart, who formed was Winifred Westover, apparently is ready for a reconciliation but the great portrayer of big men in western dramas is indifferent.

While denying rumors of a Christmas reconciliation, Mrs. Hart criticized her husband's discretion for the kind of toys he sent to "Bill" Hart, Jr.

"No, Mr. Hart did not spend Christmas with his son. He didn't even inquire for the baby. He sent a large basket of toys, but it is evident that my husband is not familiar with the needs of a young baby. The presents were such as would be suitable for a child at least 2 years old. I was in hope that the love of his son would prove stronger than the influences that seem to hold Mr. Hart."

"I telephoned the baby's father some time ago to come and see the baby and he replied that he would sometime—maybe."

Mr. Hart could not be located at an early hour today.

The impending divorce action on the part of Mrs. Hart is expected to be filed within the next few weeks. Extreme cruelty, it is reported, will be charged.

## Believe 7 Missing Men Have Perished

CLEVELAND, Ohio, Dec. 27.—While search was continued today for the seven missing members of the crew of the tug Cornell, which left here last Thursday bound for Buffalo, hope of finding any of them had been abandoned with the finding of the missing lifeboat on the Canadian shore containing the frozen body of Michael Paytoch, a fireman on the ill-fated craft.

The tug, listed with port authorities as missing, will probably be transferred to the lost list today.

Captain Sherman W. Gould, United States hull inspector here, said that an official investigation would be begun as soon as the last hope for the tug and its crew had been given up.

## Large Bible Class Reported by Pastor

Many women of Glendale are availing themselves of the privilege of attending the bible class which meets at 10 o'clock Thursday morning in the Presbyterian church, according to Rev. Louis Tinning.

"This class is undenominational and unsectarian," he remarked. "It is open to women of all churches or of no church."

**BIKE IS STOLEN**

## COMMENT THAT'S ALL

Personal Inventory  
Education Necessary  
Good Work, Postoffice!  
Plenty of Prosperity

By Gil A. Cowan

ANOTHER year is fast coming to a close. The merchants of Glendale are busy taking inventory—seeing what they have done during the twelve months past and laying plans for the coming year.

Likewise, each and every one of us should devote an hour or more of consideration some evening this week before the New Year arrives in taking a personal inventory of that which we have done. And there is many a good resolution for 1923 to be made, also.

Recently there appeared in an exchange a little squib entitled "Review, Each Day." That is good, but a year gives us so much more to review; likewise a longer period in which to accomplish something good.

John J. Tigert, commissioner of education, department of the interior, sends a letter of thanks to The Evening News for its cooperation in American Education Week which was observed in every community of the United States.

"We have never had a week of this kind which has been so successful," he writes, adding: "Education is controlled by the people in America. Members of school boards are elected by the people; legislators who enact the laws which control our schools are elected by the people; state superintendents of public instruction and other officials are elected by the people. It is impossible to take any steps forward in education except as the people approve."

That paragraph says a lot and means more when you stop and analyze its value. In essence, it declares that schools of the people, are for the people, and by the people's representatives—a principle enunciated by the great emancipator as the American fundamental.

The annual observance of American Education Week will do much to bring to the people a realization of their duties toward the people of future generations in providing schools representative of the best their community can afford.

It is a sad fact that many sections of this great land of ours does not have schools such as California boasts. Perhaps a little missionary work may be performed by the rank and file here in sending pictures of our modern schools to friends and relatives in those communities of the south and east, showing the vast strides made by education.

Certainly, we should preach the gospel of good schools.

The last of the Christmas mail is being cleared through the Glendale postoffice and today the clerks are taking a breathing spell.

Theirs is a task well done this year, for, although records were established, there has been little to mar the happiness of the many.

When one stops to consider what a great deal Uncle Sam does for 2 or 3 cents, it seems remarkable that order ever comes out of chaos that accompanies quantity handling of letter mail and parcels post.

The men who ride the mail cars of the transcontinental limiteds, the men who start out with star routes over desert roads, yes, each and every employee of the postal department, deserves his or her share of thanks for a work of love.

So it is with all service. There is pride in doing a thing well. Your heart and hand must be consecrated to duty if any measure of success is to be attained.

It is good to see the coast rail lines again ordering equipment on a vast scale. With each announcement of new rolling stock there comes a feeling of assurance in what the future holds for us here on the Pacific slope.

The closing year throbs with prosperity for the great southwest and there is no occasion for other than optimism. Crops are good, the weather fair, the labor situation excellent and the money market easy.

All America will close its books for 1922 with a feeling that 1923 will be better and all that remains now is to prepare for it.

Industrial and mercantile preparedness is as necessary as military or naval preparedness.

Let us build, let us boost, let us look ahead!

**PREVENT HORSE THEFT**  
An attempt to steal a horse by three Mexicans from the barn of the Los Angeles Basket company, just across the southern limits of Glendale, was frustrated last night by the night watchman, Ed Oils of 441 West Cypress street. The Glendale police department was notified and Officers Louis Nunn and Ralph Baugh hurried to the scene, but could not find the Mexicans.

**LEAVE FOR MT. LOWE**  
Miss Cecil Chase of 400 Riverside Drive, Miss Alice Carpenter of 205 Hawthorne street, and Miss Gladys Sharpe left at an early hour this morning for Mt. Lowe. They planned to make the trip up the incline railway, and will hike across to Mt. Wilson and down the mountain trail tomorrow, arriving at home in the evening.

## DEMANDS ACTION BY SUPERVISORS

C. of C. in Resolution Asks  
Board to Assist in  
Meeting Problems

The directorate of the Chamber of Commerce, at its meeting yesterday in the chamber's assembly room, passed a resolution to the effect that a committee be appointed to petition the Board of Supervisors of Los Angeles county to take up with the state legislature at its ensuing session the problem of county sewerage. The legislature is scheduled to meet within the next ten days.

Action on this matter was taken after County Supervisor W. Wright, of the Fifth district, who was a guest at the Chamber luncheon, answered some questions put to him by directors on the county sewerage problem.

When the question was fired point blank at him: "What are the supervisors doing toward providing some of the outlying county districts with sewerage systems?" Supervisor Wright said: "Some time ago the supervisors took up the feasibility of a metropolitan sewerage system. This project was discussed pro and con and subsequently shelved. However, at the time, it was the sense of the supervisors that the system in question would meet the need of all county sewerage propositions."

The metropolitan sewerage system, Mr. Wright explained, could be made either a combination of outside suburbs, or could be so formed so as to connect with the city of Los Angeles. He told the Chamber directors that further state legislation would be necessary to permit of the formation of the system outlined. And if the Glendale Chamber of Commerce would send a resolution to the Board of Supervisors, he advised the directors, the Board would willingly see that the matter would be taken up at the next session of the legislature.

At this juncture Director C. E. Kimlin moved that the necessary resolution be drawn up and submitted to the Board of Supervisors. His motion was carried.

President Jesse E. Smith, of the Chamber, who presided at the meeting, said that he would appoint a committee at once to

## LOUISIANA CRIME INFLAMES STATE

Two Former City Officials  
Are Held by Police for  
Twin Murder

MERROUGE, La., Dec. 27.—With two former officials of Moorehouse parish behind prison bars in connection with the kidnapping and murder of Tom Richards and Watt Daniels last August, citizens of this section were waiting stolidly today for the axe to fall again. Department of justice agents who for months worked to uncover the evidence on which the state of Louisiana will seek to convict the men for murder have promised that nearly a score of men eventually will answer for the crime they uncovered in the waters of Lake La Fourche.

draw up the resolution involved. A report on the progress being made by the Glendale Advancement association toward the erection of a suitable hotel for Glendale was made yesterday at the weekly meeting of the Chamber of Commerce's directorate by P. J. Hazelden, chairman of the Chamber's hotel committee.

Mr. Hazelden told the directors that he believed that the committee would have something definite to report within the next three days.

He said that members of the committee plan to take up the hotel proposition with the Strauss company of San Francisco within a few days.

Except for the foregoing very little in the way of unfinished business was transacted by the Chamber directors. The minutes of the last meeting were approved as read by Secretary James Rhoades.

The new members who joined the Chamber during the past week include Dr. Otto H. Gotsch, 221-A West Broadway; Dr. A. C. Tucker, 233 South Brand; America-Panama Development company, Monarch company, Glendale Building & Loan association, 212½ West Broadway, and Bestland's, 625 South Brand.
